MASONITE®

INTERIOR DOOR

Selection Guide

METRIE®

Masonite is built on a 100-year history of innovation and sustainability. We proudly manufacture our doors using renewable natural resources to be better stewards of our planet. We thoughtfully design our selection and purchase processes to provide a best-in-class customer experience. We strive to deliver on these promises — every time.

We are on a mission to make life better as we elevate the “everyday door” into something extraordinary. We create beautiful, durable exterior and interior Doors That Do More® in a curated portfolio that fulfills human needs for comfort, safety, security, and convenience so that people can rest, learn, work, and live more comfortably.

As we enter our next century, we will continue to ask what more can our doors do to make life better?

Introducing

Calden™

TRADITIONAL LINES, MODERN-DAY ENGINEERING

The Heritage Series Calden 3-Panel Molded Interior Door blends traditional aesthetics with modern engineering, featuring a uniquely angled panel profile that is designed to reduce dust buildup and minimize paint accumulation, making cleaning and painting easier.

- Solid core option is designed to help reduce sound transmission between rooms.
    - Crafted with durable materials from the inside out to provide quality that can be felt every time the door is opened and closed.
- Engineered to resist warping, shrinking, and cracking for long-lasting durability.
- Available in fire-rated and ADA-compliant options to meet safety and accessibility standards.

Engineered for Comfort. Crafted for Quality.

Our solid core doors combine performance, style, and reliability, making them an easy choice for customers and a smart addition to your portfolio. Engineered to deliver sound-dampening performance, these doors help homeowners create quiet, comfortable living spaces without sacrificing design. With a broad selection of designs ranging from sleek modern to classic traditional, they seamlessly integrate into any home aesthetic, giving you versatile options to meet diverse customer preferences.

MASONITE
HOLLOW CORE DOORS

5-YEAR WARRANTY

MASONITE
SOLID CORE DOORS

7-YEAR WARRANTY

Each door's substantial weight reflects its high-quality construction and long-term durability, offering a noticeable sense of strength of craftsmanship that customers immediately recognize and value. For added peace of mind, 20-minute fire-rated options provide enhanced safety while maintaining the same design-forward appeal. Backed by an industry-leading 7-year limited warranty, these doors deliver the dependability your customers expect and the quality they can feel. Our solid core doors are a compelling solution that drives satisfaction and repeat business.

Cheyenne in Roycroft Pewter SW2848

Make Solid Core The Standard

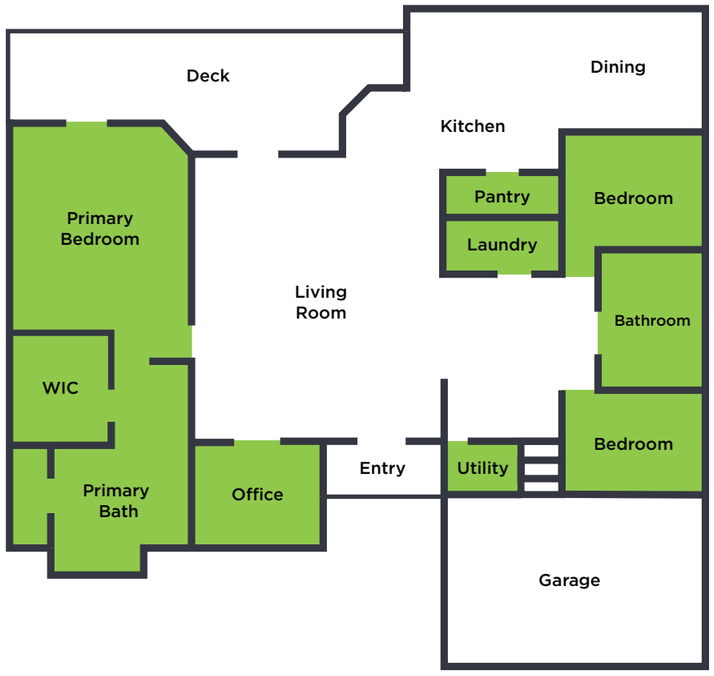

Engineered for Comfort. Crafted for Quality.

Homes are full of life and noise. That's why our solid core doors are thoughtfully engineered to reduce sound transmission between rooms while elevating the overall aesthetic. Crafted with durable materials from the inside out to provide quality that can be felt every time the door is opened and closed.

SOUND + PRIVACY + QUALITY

The Premium Home Standard

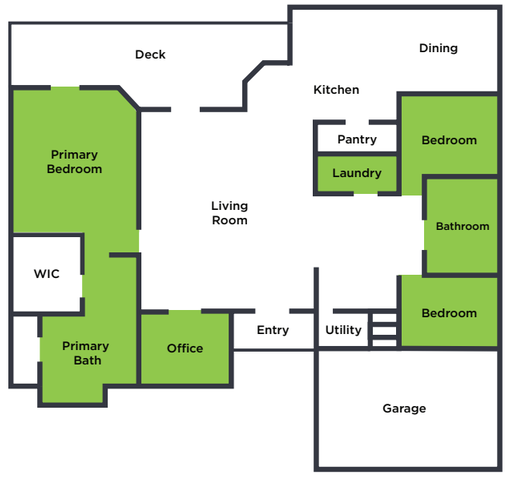

Build consistency throughout the home with high-quality doors that look great and feel substantial.

AREAS TO CONSIDER:

Bathrooms
Laundry Room
Bedrooms
Home Office
Closets
Pantry
Utility Room
Media/Game Room

The Step-Up Home Standard

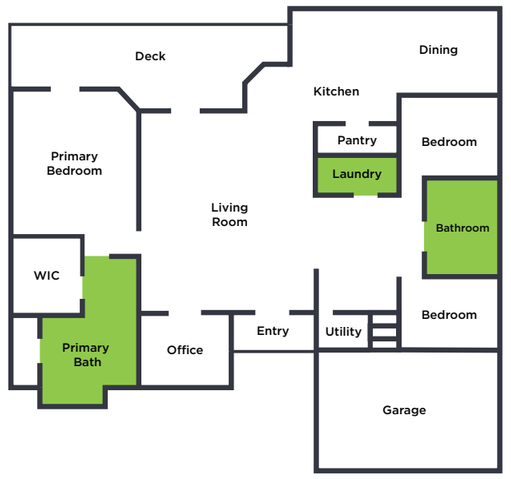

SOUND + PRIVACY

Create quiet spaces for work and rest by using solid core doors to keep sound out of rooms to help enhance privacy.

AREAS TO CONSIDER:

Custom Options

***AVAILABLE IN SOLID CORE**

Door Sticking by Collection

Sticking is the ornamental profile between a door's panels and its stiles and rails.
See available sticking options below.

Heritage Series

The Heritage Series features a unique Shaker-style sticking with a shallower angle to reduce dust buildup.

Winslow®

West End Collection

The West End Collection features an embossed sticking that provides a modern, striking focal point.

Berkley®

Molded Panel Series

Our molded doors feature a detailed ovolo sticking that elevates any traditional or transitional home design.

2-Panel Arch-Top

The Livingston® bears its own unique molded sticking.

Flush Series

Flush doors showcase a smooth surface across the entire door panel for a style that is as simple as it is bold.

Flush Oak

Wood Doors

Our wood doors are available in three distinct stickings to elevate a variety of home styles.

Ovolo Single Hip

Ovolo Double Hip

Square

Heritage Series

Craftsman-style features clean, straight lines with artisanal details and recessed panels. Their versatile design enhances the architectural appeal of any home, complementing both classic and contemporary aesthetics.

* ADA compliant 10″ bottom rail.
† Standard bore machining (2-1/8″ diameter) requires a stile no less than **3-11/16″** to accommodate a **2-3/8″ backset**.
^ Standard bore machining (2-1/8″ diameter) requires a stile no less than **4-1/16″** to accommodate a **2-3/4″ backset**.

**Narrow outside stile could restrict handle set options.

Note: 48”, 60” and 72” bifolds are achieved by doubled 24”, 30” and 36” bifolds (has 4 pieces).

Note: West End Collection is not for use with double doors.

Please note that some sizes are only available as a result of being trimmed from a larger facing. The trimming process may result in a stile width that is too narrow to accommodate a standard bore. To machine a standard bore with a 2-3/8″ backset on the lock hole and a 2-1/8″ diameter bore, the outer stile measurements must be no less than 3-7/16″ wide. Many facings have a lockrail that will accommodate a standard bore even when the stile width is too narrow. Please refer to Masonite Molded Door Facing Dimensional Specifications to verify the outer stile measurements or contact your Masonite Interior Door servicing plant. Textured refers to embossed wood-grain. Pre-finished white is available as textured only. Not all molded panel designs and sizes are available in all regions as stock products. Please check for special order availability. Our continuing program of product improvement makes specification, design, and product detail subject to change without notice.
